## **Lily's List - Student Loan Gift Network**

*www.lilyslist.com*

Although not specifically for pre-meds, Lily's List, Inc. is a service that every college student should know about. Started by four moms concerned about the burden of student loan debt, Lilyslist.com allows your family, friends, or even a generous anonymous benefactor to

deposit gift donations directly into federal or private student loans. Anyone with a current student loan is eligible to become a member of Lily's List.

Students create a registry and then tell potential donors about it. Tell them to make a donation to your registry instead of giving you a birthday or graduation gift. This is a great way for students to start paying down their college debt. ■
